Vol. 5 No. 43

Coleman, Alberta, Thursday, June 17, 1926

Price Per Copy, Five Cents

THE MAIL BAG

June 14th, 1926

To the Editor Coleman Journal,
Dear Sir:—

If you will grant me space in your valuable paper I should like to make some comments on Mr. Powell's letter published in your issue of two weeks ago.

He says he is not in favor of hiring indiscriminately every product of the local schools who has completed the course of Normal training required by the Department of Education. I should like to know how he is going to discriminate if all have completed the course satisfactorily. Of course the five or six local products he can vouch for and is aware of their ability, sounds all right, but all the same the expression creates a suspicion of patronage, and would have been better, in my opinion, left out of his letter.

In regard to salaries I think Mr. Powell goes quite a long way out to make comparisons when he quotes cities like Calgary and Lethbridge, but even in these two cities they just put the value of one thousand dollars a year on an inexperienced teacher while in Coleman we have been paying eleven hundred, for some time, and conditions are not to be compared with the cities. We are laboring under greatly reduced earnings and there is a tax arrears account of somewhere around twenty thousand dollars, and so, why pay eleven hundred when even the Teachers' Alliance only call for one thousand, and that only recently.

As for the maximum of seven hundred which it is possible to reach in Calgary, by good results, he cannot think that we could go to that length, our high spot would have to be away below that and when any teacher attained the maximum and was ambitious for more, she would have to go to the cities or anywhere she would be liable to get it.

Mr. Powell attributes the system of engaging local teachers to lack of accommodation for outsiders. I don't think he is right because I have reason to believe that private room and board was not so hard to find as we are asked to believe. The real reason is obvious to any discerning man who takes the trouble to consider the personnel of the Board in recent years, and I believe that we would have a better conducted school system if we had five entirely disinterested men on the Board of Trustees.

If Mr. Powell's remarks about the ownership of cars was meant to convey the impression that teachers were unable to buy cars, it proved nothing. He will be aware that nearly every trade and profession absolutely need cars these days to carry on, but seldom in the case of teachers, the greater portion of whom are females, and they don't need them so much, as they can usually find enough of the other gender to take them out.

Mr. Powell gets twenty-seven hundred dollars a year for working two hundred short days. A miner is lucky if he gets the chance to work so many days during the year, but if he does, he gets about one thousand in the mine and considerably less outside. If he is not (rolling in the lap of luxury) what is the other fellow doing, and yet he has to contribute through taxation to all the salaries.

Yours truly,

J. S. Rogers.

WANTED! Volunteers for house to house collection on Saturday and as collectors on Sunday, also loan of national flags of all nations. Phone 22b, Coleman, before Saturday.

Demonstration on Sunday In Aid of Red Cross

The following is the order of program arranged for the big demonstration in aid of the Red Cross Society in Coleman on Sunday, June 20th:—

A procession will be formed outside the Town Hall at 2:30 p. m., headed by the Town Band and the following will take part:—

1. No. 1 and 2 Troops of Boy Scouts.
2. The Town Band.
3. The local Veterans.
4. Junior Red Cross Society, West Coleman branch.
5. Coleman Pipe Band.
6. Local Lodges.
7. National and Friendly Societies.

The local Elks will act as Marshals.

On arrival at the Park a service will take place, when short addresses will be given by Rev. D. K. Allan, Father McCormick and Rev. H. Laurence Nobbs. The Salvation Army Officer will read the New Testament lesson of "The Good Samaritan." Hymn singing led by the Coleman Town Band.

Collection will be taken for the Canadian Red Cross Society.

The support of every Society and citizen in The Pass is requested for the work of this venerable Society.

Rally around everybody! Let us show in a practical way our sympathy with the Red Cross.

Local Masons to Hold Basket Picnic at Lake

A basket picnic will be held at Crow's Nest Lake under the auspices of Summit Lodge No. 30, A. F. & A. M. on Wednesday, June 23rd. All Masons and their families and members of the Eastern Star are cordially invited to attend.

Cars will leave the lodge room commencing at 1:30 p. m., and arrangements will be made to have cars call at the schools at 4 o'clock to pick up those of the children attending school.

A good program of sports, etc., has been arranged and the committee in charge ask all members to make an effort to attend this outing.

Remember Faithful Worker.

The members of the local W. I. gathered at the home of Mrs. J. A. Price on Monday evening to honor one of their most faithful workers, Mrs. D. K. Allan, who is shortly leaving Coleman. During the evening Mrs. Graham gave a humorous reading, Mrs. J. Ashbridge a vocal solo, while Mrs. J. Emmerson was the winner of the pin contest.

Mrs. A. W. H. McLeod, president of the Institute, voiced the regret of the members on losing Mrs. Allan, a worker who had never failed to come to the front in anything undertaken by the Institute, and presented her with a beautiful framed picture of Crow's Nest Mountain. Mrs. Allan feelingly responded, remarking that she had many pleasant memories of her residence in Coleman, and concluded by saying, as Harris so aptly puts it, if you have pleasant memories you will have roses in December. Dainty refreshments brought the evening to a close.

Just two weeks from Saturday some fortunate individuals will own a splendid new fully equipped Ford touring car and a dandy Electric Hot Housekeeper Washing Machine. A dollar bill invested in a ticket might make you one of those lucky people.

Leader of Provincial Liberals

Capt. Jos. T. Shaw, provincial Liberal leader, who has a good war record and has made an enviable reputation as a clean, keen political fighter, will likely speak at several points in The Pass next week in support of Arthur Densmore.

Quimette's Big Close Out Sale Nearing The Home Stretch.

Friday and Saturday of last week were banner days at the Big Store on the Corner. Sufficient stock was disposed of at almost "giving away" prices, to sweeten the entire community for many months to come, while bargain hunters fairly revelled in the countless other good things offered on these red letter days at the Quimette Close Out Sale.

Another big full sheet poster, containing even greater bargains, was printed by The Journal Book Dept. early this week, and Friday and Saturday, June 18th and 19th, should witness two of the most sensational buying and selling days in the history of this the most astounding merchandising event ever attempted in The Pass. Read the poster carefully and don't put off seizing some of the bargains offered, as this sale is fast approaching the finish—the fixtures are advertised for sale and the store building is for rent—so act NOW!

On Friday morning 50 boxes of merchandise are to be given away FREE. Be early and get yours.

Decorate Graves of Departed

Brethren and Sisters of the Coleman Three Links assembled at their hall on Sunday afternoon last and headed by the Town Band paraded to the Union Cemetery, where the impressive ceremony of decorating the graves of departed members with floral tributes was carried out. There was a good attendance of both Odd Fellows and Rebekahs.

Farewell Social at St. Paul's

The congregation of St. Paul's church will hold a farewell social in the church on Tuesday, June 22nd, commencing at 7:30 p. m. in honor of the Rev. and Mrs. D. K. Allan. All members, adherents and friends are cordially invited.

All members and visitors of Summit Lodge No. 30, A. F. & A. M., are requested to meet outside the lodge room at 2:30 p. m. Sunday, June 20th, for the purpose of attending the Red Cross demonstration in the park, W. E. G. Hall, W. M.

A collection was taken in Coleman last Saturday in aid of the British mine workers.

The regular meeting of the W. I. will be held at the home of Mrs. R. Evans on Tuesday, June 22nd.

Red Cross Concert in Opera House Well Attended

Mrs. Conquest of the Canadian Red Cross Society visited Coleman over the week end as the guest of Mrs. Nobbs at St. Alban's Rectory. On Sunday, Mrs. Conquest gave addresses at the Union Church 8. S. and St. Alban's S. S., and in the evening at the Opera House. There was a large attendance. Mr. G. Pattinson presided. A splendid program of music and singing was contributed by the Coleman Amateur Orchestra, Mrs. Ashbridge and Mr. T. Johnston. The pictures on the screen of the Red Cross work being done were ably interpreted by Mrs. Conquest.

The local Scouts in their smart uniforms acted as ushers and made the collection for the Red Cross Society, which amounted to something over twenty-five dollars, made up as follows:—

Box 13669	\$8 65
Box 1987	\$7 50
Box 13663	\$7 99
St. Alban's S. S.	\$1 50
Total	\$25 64

The officers and members of the Coleman branch desire to thank all those who contributed to the funds of the Society and also those who assisted on the program at the concert.

Alberta Coal Production Suffers Big Loss

The following statement made recently by Capt. F. T. Shaw, provincial Liberal leader, in one of his speeches should give the people of the mining districts of the Crow's Nest Pass food for serious consideration. In speaking of the present U. F. A. government's attitude toward the coal question he said:—"During this government's term of office the Coal industry has languished. We have not captured any new market, but we have largely lost the Manitoba market. As compared with 1921 our Alberta coal production in 1925 represents a loss of over \$10,000,000."

Pincher Creek Golf Club Entertain Coleman Visitors

Messrs. G. R. Powell, J. R. Wood, R. Wilson, R. G. Powell, R. F. Barnes, H. C. McBurney, Geo. Paterson, and R. Gillis journeyed to Pincher Creek last week-end and enjoyed the splendid hospitality of the Pincher Golf Club. Jupiter Pluvius somewhat marred the day's golf, but in no way dampened the good fellowship for which Pincher sports are famous, as the visitors report having a right royal time. Pincher Creek and Fernie golfers are to be guests of the local club on Sunday, June 20th.

The new tippie and cleaner of the International Coal & Coke Co., commenced operating on Saturday of last week and worked splendidly.

Mrs. D. A. MacKinnon, of Kimberley, arrived in Coleman last Friday, and is renewing acquaintances with her many friends here. Mrs. MacKinnon expects to return to the B. C. mining centre the latter part of this week.

Mr. and Mrs. Herdman McLeod are spending a holiday at the Coast where Mr. McLeod is recuperating following his recent illness.

Mrs. J. A. McLeod and children left this week to visit relatives and friends in Nova Scotia.

Mr. J. Emmerson is erecting a summer cottage at Crow's Nest lake.

Personal and Local

Several hundred full sheet posters, giving full details of Coleman's Big Sports Day and Carnival commencing July 1st, were printed by The Journal Job Dept. last week, and are being posted up throughout The Pass letting the folks know what Coleman has in store for them during those three eventful mid-summer days.

Mr. Sam Coley suffered four fractured ribs on Monday night, as a result of a fall of coal in the International Co.'s mine.

Mr. Harry Clark is getting about again, with the aid of a cane, following an injury to his leg, about ten days ago.

Mr. J. C. Cox left Sunday morning late for Vancouver, owing to the serious illness of his daughter. Mrs. Later news received here stated that this well known and popular young lady passed away on Sunday evening before Mr. Cox arrived. Mrs. Cox, who left last week with her daughter when the end came. Much sympathy is felt in Coleman for the bereaved ones in the sudden passing of this estimable young woman.

Messrs. J. Houghton and W. J. Burns were early birds in the fishing field on Tuesday morning. They returned from Lundbreck falls early in the day with eight nice trout.

Mrs. J. E. Leimier, who has been visiting her daughter, Mrs. H. Wilton Clark, returned to her home at Didsbury on Monday.

Come On Out!

Five Scouts of the Crusader Troop successfully passed their remaining Second Class tests, thus qualifying for Second Class Badges.

The Scoutmasters and assistants do not wish to rush matters in these tests, but prefer to follow the scouting principle of regularity and thoroughness.

The Crusader Troop invaded Blairmore on Saturday last for a friendly game of baseball and had to swallow the bitter pill of defeat. But they say "wait till next time."

The Second Class Tests are: Elementary First Aid, Signalling, Scout Pace, Tracking, Cooking, Fire Lighting and Compass. Quite a number of both Troops have passed these tests. For First Class Scout there are sufficient tests to keep the most ambitious busy for several months.

Mr. J. Muir had the misfortune to lose a portion of one of his ears in an accident on Saturday last while at work in the International mine.

VOTERS

ATTENTION!

Directions as to the use of Preferential Ballot

The preferential ballot will come into general use for the first time in the forthcoming provincial elections. Every voter should be thoroughly conversant with the method of marking the ballot before attempting to vote. Read these instructions:

The voter MUST NOT USE THE X MARK.

The voter must place the figure 1 opposite the name of the candidate who is his first choice, the figure 2 opposite his second choice, the figure 3 opposite his third choice and so on until he has voted for all the candidates on the ballot if he so wishes.

The voter may plump for one candidate alone, using the figure 1, without spoiling his ballot, but is urged to vote to the full extent of his choices, as it is only by doing this that the voter obtains the full benefit of this form of ballot.

The voter must not place more than one choice opposite any one candidate.

The voter must not make the same choice for more than one candidate.

The voter must not make any mark on the ballot not authorized by these directions.

Read these Instructions Carefully

JOHN D. HUNT,

Clerk of the Executive Council, Government of Alberta.

THE ECONOMIC NEED OF CANADA IS MORE PEOPLE

Toronto.—Canada's economic need is for more people. We need more producers and more consumers. The policies which give us both are the policies which produce prosperity, and prosperity will give us national unity. We need more people. We need more people to share the fruits of our prosperity. We shall have little of the need for national unity or national harmony. These were the closing words of Right Hon. Sir Thomas White, former Dominion minister of finance, in an address delivered at the closing session of the annual meeting of the Canadian Manufacturers' Association here.

Sir Thomas declared that the policies necessary for prosperity were the policies which would develop the resources of Canada. Prosperity had for Canada a much greater significance than the mere making of money. "We must, even if it involves some cost to us, provide in Canada the diversified industries and occupations which will take up that part of our population which desires to engage in callings other than our primary industries. We should do everything in our power to promote agriculture, mining, lumbering, fisheries, but we should also do everything in our power to promote industrial enterprise," he said.

Sir James Aikins, lieutenant-governor of Manitoba, who preceded Sir Thomas White, made a strong appeal for Canadian unity. In behalf of the prairie provinces he hoped that sympathy be shown by the rest of Canada. "If any of our provinces are weak, I beg of you, gentlemen, to consider them in a spirit of fairness and assistance in order to make what the body of Canada healthy and strong," he said. His honor, Col. Harry Cockshutt, lieutenant-governor of Ontario, paid a tribute to the remarkable development of the Canadian west in the past quarter century. "Today we find a prosperous west with a wealth in 1922 of \$8,400,000,000, and a population of 1,800,000, who produced in 1921 \$840,000,000 and whose estimated total wealth today is eight billion dollars. These figures speak for themselves and serve to give us courage to face the future with a strong heart."

Hauling Gravel On Hudson's Bay Line

Two Trains Distributing It Along Right Of Way

The Pas, Man.—A steam shovel has started operation on the Hudson's Bay Railway.

It is located at a gravel pit about five miles south of the town. This pit was recently purchased by the Canadian National Railway, which is taking steps to acquire the land adjoining, which contains a large quantity of gravel. Two trains are working out of this pit, distributing gravel along the right of way. It is expected that another shovel will be put in commission very shortly.

Lloyd George To Visit Russia.—Former Prime Minister David Lloyd George is said to have decided to accept the invitation of the Soviet to visit Russia this summer to see what progress the country has made. Labor clerics say that Lloyd George already is in Russia, and that the Russian Government is not as bad as it is painted and will advocate close relations with it.

Strike Is Settled.—Oslo, Norway.—The strike of 30,000 engineers and miners which began last April has been settled by the acceptance of mediation on the part of the employers and workers. The employees insisted upon a 17 per cent reduction in wages based on the reduced cost of living.

Sentenced to Hang.—Winnipeg.—Sentence of death was read on Gabriel Procter for the murder of Annie Cardno, an old-time heart, in Winnipeg, March 16. The execution was fixed for August 25. Procter was asked when sentence was pronounced.

Economic Commission.—Berlin.—An economic commission is investigating Germany's capacity for action in all lines and her market facilities at home and abroad. The body will begin its investigation immediately.

Negotiations Completed.—Liverpool.—It is understood that the negotiations for the sale of the White Star Line have been completed, except minor details, and all arrangements are being made to transfer the line to British interests early in July.

W. N. U. 1623

Killed By Senate

Old Age Pension Bill Defeated In Upper Chamber

Ottawa, Ont.—The senate threw out the old age pension bill by a vote of 46 to 21. The defeat of the bill came on the second reading, which had been moved by Senator Dandurand, Government leader. In the vote, Senator Robertson, former minister of labor, was the only Conservative to support the bill. Sir Allen Aylesworth, Senators J. J. Hughes, and Senator Turfitt, all from the government side of the house, voted with the Conservatives against the bill.

Senator W. B. Ross, Opposition leader, said that he believed the government had no constitutional right to invade provincial jurisdiction over such matters as old age pensions. The bill constituted a discrimination against the maritime provinces because they were unable to participate in the financial proposals of the bill. Senator Belmont said it would be unfair to deprive some provinces of the advantage of the scheme because others could not take it up.

Senator Beaudin said Quebec opposed the bill. Senator J. D. Reid said that only one out of the nine provinces had expressed a willingness to participate in the scheme. It should have been dealt with by a conference of premiers before introduction.

Senator Dandurand, Government leader, in moving second reading of the bill, urged that it be a measure of relief for poor working people.

Popularity Of Lord Willingdon

Canadians Resident In London Are Pleased With Appointment

London.—Canadians resident in London warmly welcome the announcement of Viscount Willingdon's appointment as governor-general of the Dominion of Canada in succession to Baron Byng of Vimy.

Hon. Peter Larkin, Canadian high commissioner in London, in a statement testified to the gratification with which the news of the appointment had been received in Canada. Right Hon. Sir Hamar Greenwood, Conservative member of the house for Walthamstow East and former chief secretary for Ireland, was equally convinced that a hearty welcome awaits Lord and Lady Willingdon on taking up residence at Rideau Hall, Ottawa.

Higher Production Of Registered Seed

Decided Increase Shown In 1925 Over Former Years

Ottawa.—Canadian production of registered seed of the principal field crops in 1925 shows a material increase over former years according to figures just released by Peter Stewart, secretary of the Canadian Seed Growers' Association. Wheat, barley and oats showed the greatest gains, the increases over the previous year being 40,000 bushels, 8,000 bushels and 7,000 bushels respectively.

There is a growing demand for many lands for samples and quotations for Canadian registered seed which seems to point to possibilities for a flourishing export trade within the near future.

Murdered in China.—Shanghai, China.—Mrs. W. E. Sibbey, wife of a Canadian Methodist missionary at Juehien, Szechuan province, was murdered in the streets of Cheung, in the same province, according to a message from the latter place.

Motor Van Kills British General.—London.—Brigadier-General Edward A. Plumbe, veteran of many wars, was knocked down by a motor van while crossing Piccadilly. He died on the way to the hospital.

Tariff Advisory Board

Manufacturers' Association Expresses Faith That Proper Stand Will Be Taken

Toronto.—Confidence that the new tariff advisory board would deal fairly with the problems which it will be called upon to face, keeping in mind a broad Canadian attitude in its discussions, was expressed by various speakers at the annual meeting of the Canadian Manufacturers' Association.

President J. H. Fortier, Quebec, said: "I think, gentlemen, that when you take your cases to that commission, you will be well received. I have all faith that as Canadians they will take a proper stand."

Regarding the relation of the manufacturers to the rest of the country, the speaker said: "What we want is to show ourselves in a proper light to other classes in the country. Our case is their case; their case is ours. If we could bridge over the gap that appears to exist we would have accomplished something worth while for the good of Canada."

Hon. E. J. Davis, Newmarket, declared that co-operation was evident in Canada today and therefore suggested a Canadian development committee, composed of men of broad vision to meet representatives of farmers and other classes to discuss matters of interest to all. In this way an excellent condition of affairs could be brought about.

\$3,000,000 IS VOTED FOR WORK ON H. B. ROAD

Ottawa.—After considerable discussion, the house passed a vote of \$3,000,000 for the Hudson's Bay Railway. The vote went through without a division.

The purpose of the vote is to put into shape for operation the 325 miles of the road from The Pas to Kettle Rapids on which steel has already been laid.

Speeches came mainly from Conservatives, among whom there was a division of opinion over the road. The point was pressed, however, that before embarking on the Port Nelson harbor scheme, it would be advisable to make practical tests of the Hudson's Bay route as a grain carrying route. Hon. Dr. Manion suggested that, to this end, a Canadian Government merchant marine vessel should make trips for three years from Halifax to Port Nelson and give a fair and honest report of the straits and the bay.

Hon. R. B. Bennett was emphasizing the suggestion when a Conservative interrupted that the vessel in its test trip might take the cabin alone.

"Or the board of strategy," shouted Hon. C. A. Dunning. Immediately after the passing of the Hudson's Bay vote, the house, without discussion, passed two votes for the Welland Canal. One was \$14,000,000 for construction, the other \$145,250 for additional payment to the contractors.

Withdraws Motion On Egg Grading

Question Will Be Referred To Committee Of Agriculture

Ottawa.—A motion introduced in the house by Hon. Hugh Guthrie (Conservative, South Wellington), which stated that "in the opinion of this house" the system of egg grading which came into force April, 1923, imposed a hardship upon farmers engaged in egg production, was withdrawn, after Hon. W. R. Motherwell, minister of agriculture, had agreed to refer the question to the committee of agriculture.

SENATE ADOPTS AMENDMENTS TO CUSTOMS TARIFF

Ottawa.—The senate adopted the budget amendments to the customs tariff and the bill was given its third reading.

When these amendments were under discussion, Hon. J. D. Reid, former minister of customs, said from his experience the customs staff on the whole was a good organization. He never could understand how the service administered the customs act at the salaries paid. Men getting less than \$2,000 a year were doing work of the most important character. He did not believe the customs act ever properly administered by less competent men were secured by paying adequate salaries.

Hon. Jacques Bureau, late minister of customs, endorsed the remark of Mr. Reid. He believed the present customs staff was equal to any in the government service but are underpaid and under-manned.

There was considerable discussion on the amendment making free certain automobile parts not manufactured in Canada.

Senator Gordon thought that the duty should be maintained and these parts made here.

Senator Dandurand said that when they were manufactured in Canada the duty would be replaced.

Hold Royal Court

Nearly Nine Hundred Guests Present to King and Queen at

London.—Plumed, bejewelled and groomed in gossamer court gowns of dazzling beauty, women of social and political prominence were presented to King George and Queen Mary at Buckingham Palace at the first of the season's royal courts.

The King and Queen entertained nearly nine hundred guests, mostly drawn from official diplomatic circles, as is the custom for the first court. About a third of those attending were debutantes and older women who were ushered into the presence of royalty for the first time.

Valuation Of Elevators

Valuation of 451 Elevators In Saskatchewan To Be Made This Month

Winnipeg.—On application of R. H. Milliken, representing Saskatchewan Pool Elevators Ltd., proceedings of the arbitration board valuating the elevators of the Co-op Elevator Company, in connection with the proposed sale of the Saskatchewan Wheat Pool were suspended, after two sessions. The date is to be fixed at Port Arthur and the arbitrators are returning home. It seems probable the third and final session of inquiry, namely, that dealing with valuation of 451 line elevators located in Saskatchewan will not be proceeded with before June 28.

Body Washed Ashore.—Windsor, Ont.—The body of Mrs. James Phillips, missing since the middle of the winter, with her husband and three children, who disappeared while driving in a sedan across Lake Erie from Pelee Island, was washed ashore at Sturgeon Bay, three miles from Leamington. The body was identified by Fred Gate, brother-in-law of Mr. Phillips.

Given Life Membership.—St. John, N.B.—Life membership in the National Chapter of the Imperial Order Daughters of the Empire was conferred on the honorary president, after Hon. W. R. Motherwell, minister of agriculture, had agreed to refer the question to the committee of agriculture.

May Organize Wheat Pool For Ontario

Will Likely Work In Close Co-operation With The Western Pools

Toronto.—The United Farmers' Co-operative Company, Limited, undoubtedly will take the initiative in organizing an Ontario wheat pool to work in close co-operation with the western pools, was indicated by H. A. Gilroy, president of the United Farmers' Co-operative Co. Ltd., in a statement here.

Colin A. Burnell, Winnipeg, secretary of the central selling agency of the western pools and president of the Manitoba Wheat Pool, has been in close touch with executive members of the U.F.O. organizations during the past week, and if the cooperative company decides to proceed with the project, it is expected Mr. Burnell will be called upon to assist in the necessary organization.

Mr. Gilroy expressed himself as having complete confidence in the feasibility of a wheat pool for Ontario, but the matter will be threshed out thoroughly at the next board meeting of the United Farmers' Co-operative Company, Ltd., this month.

B.C. Sawmill Burned

Big Blaze Throws Two Hundred Men Out of Work

Merritt, B.C.—Two hundred men are out of work in this town in Nicola Valley in the interior of British Columbia as a result of a fire which destroyed the sawmill of the Nicola Pine Lumber Company, one of the largest mills in the province, with a resultant loss estimated at \$200,000.

Several of the employees were rescued from the burning building only with great difficulty and the whole town for a time was threatened by the embers which were carried for long distances by a heavy wind.

Heroic efforts of the fire fighters resulted in the planing mill, drying kilns and millions of feet of lumber in the adjacent yard to the sawmill being saved, despite the fact that the wind was blowing in that direction.

Want Germany In League

Leaders Anxious to Satisfy Membership Question In September

Geneva.—To get Germany into the League of Nations at the September meeting at Lausanne appears now to be the definite programme of the league leaders.

If necessary, a special session of the council will be convoked during the summer in order to render impossible any repetition of the March fiasco when the Reich statesmen were obliged to return to Berlin without being elected to membership.

This means that if Spain and Brazil continue the present policy, which is termed here as "slinking," they probably will be jettisoned by the main powers, with re-organizing of the council proceeding without them.

GOOD SUPPORT FOR A NATIONAL FUEL POLICY

Ottawa.—Establishment of coking plants in large centres of population and the adoption by the Dominion of measures which would enable Canadian coal to be marketed in Central Canada were recommended by premiers and representatives of provincial governments who appeared before the special committee of the house investigating the Dominion's coal supply.

Premier Ferguson, of Ontario, said his province was willing to bear a fair and reasonable share of the cost of encouraging the coal industry in Western Canada and in the Maritime Provinces. The use of Canadian coal in Central Canada, in place of the importation of this commodity, would, he observed, tend to keep money with in Canada.

Hon. W. R. Craig, attorney-general of Manitoba, and H. C. D. Richardson, New Brunswick minister of mines, supported the recommendations to provide fuel from Canadian mines instead of importing it.

Mr. Craig said that the experience of Manitoba with Alberta coal had been highly satisfactory. Manitoba was prepared to do its share in supporting a national fuel policy.

Mr. Craig presented a resolution passed by the recent conference here of provincial premiers, which expressed the opinion that the Government of Canada should take immediate steps to ensure the establishment of coking plants in the centres of population, and the adoption of such other measures by the Dominion as will enable Canadian coals to be marketed in the central parts of Canada.

Mr. Craig said that the experience of Manitoba with Alberta coal had been highly satisfactory. Manitoba was prepared to do its share in supporting a national fuel policy.

GRAIN SHIPPING BILL FINALLY PASSES HOUSE

Ottawa.—The Campbell bill to give grain shippers the right to specify the terminal elevators to which their grain should be shipped, passed final stages of the House of Commons after an hour's discussion.

The only amendment made was one by J. G. Ross (Liberal, Moose Jaw) which included Moose Jaw in the list of order points.

Hon. J. A. Robb announced that after consultation with the board of grain commissioners the government had decided to make Moose Jaw a grain inspection point.

During the discussion, W. K. Kennedy (Conservative, Winnipeg South Central), said that members of the wheat pool put forward the claim that they, the grain growers, had the right to gather their grain into country warehouses and ship that identical grain direct to their own pool terminals. He admitted that they had the right, but the question arose as to how they could accomplish this purpose.

The members of the wheat pool gathered more grain than they could store in the country. Consequently they were dependent upon the storage space controlled by the private elevator companies in order to accommodate the grain which they collected. But if they stored their grain in private country elevators the owners of these elevators would ship the grain to the private terminals.

Hon. Robert Rogers (Conservative, Winnipeg South), expressed the belief that the sponsors of the bill would come back to parliament a few years hence and ask that it be repealed. It would prove, he said, inimical to the general interests of Western Canada.

Suggest Co-operation To Stop Smuggling

Matter Discussed at Conference Between Canadian and U. S. Officials

Ottawa.—Closer co-operation between the Canadian and United States authorities in regard to smuggling was under discussion at a conference here between Lincoln C. Andrews, United States assistant secretary of the treasury, in charge of the American affairs of the customs department, Harry C. Whitehall, collector of customs for Vermont, and Hon. G. H. Bolvin, minister of customs for Canada. No announcement of the actual matters discussed was made.

Would Cut Tax On Wines

Ottawa.—The conference of provincial premiers and territorial representatives of the several provinces, passed a resolution asking the Federal Government to cut to one-third its taxes on wines and spirits made in Canada and sold to provincial governments, and also to reduce to one-half the tax on wines and spirits imported by these agencies.

World's Record For Seedling

Winnipeg.—Seedling operations, on a scale said to constitute a world's record, were carried out on the farm of Mrs. H. Joiner, of Spring Coles, Alberta, on June 7, when 340 horses, 10 cultivators and 100 men were used by neighbors in the sowing of 300 acres. Mrs. Joiner's husband died recently.

Whittemore To Hang

Baltimore, Md.—Richard Reese Whittemore, who killed Robert M. Holtman in escaping from the penitentiary in February, 1925, is to hang. This was the sentence pronounced upon him by Criminal Court Judge Eugene O'Donne. Sentence was pronounced by Judge O'Donne behind locked doors.

Amundsen to Visit Vancouver

Vancouver.—Röald Amundsen, leader of the successful trip across the North Pole from Spitzbergen to Nome, will be a visitor here before the end of June. Amundsen, who has been received by C. J. Björke, Norwegian consul here, in reply to an invitation tendered by Mayor J. D. Taylor.

Canadian Immigration To U. S. Washington.—Quota limitations on immigration from North, Central and South America on the same basis as now applicable to European countries would be imposed under a bill introduced by Chairman Rogers of the senate foreign relations committee.

Austrian Situation Excellent

Geneva.—The sub-committee for Austria of the League of Nations has voted that the league's financial control over Austria should terminate on June 30 as the situation in that country was excellent.

Across Canada in Eighty Hours

When the Canadian Pacific special mail train came to a stop at the C.P.R. depot at Vancouver, at exactly 5:38 p.m. Thursday, May 6, after its journey across Canada from Quebec, it established a record which, according to the officials of the company, will stand for some time. The trip was made from Quebec in three and a half days, the run from Winnipeg taking 34 hours and 4 minutes, 24 hours faster than the through passenger train, and three hours faster than the speedy silk trains, the fastest trains crossing the continent. The photo above shows the train on its arrival at Vancouver with the Old Country mails for the Azores. The transfer of the mails to the boat took only twenty minutes. Indicating the resourcefulness of the C.P.R., an executive of the company had agreed to get the mails to Vancouver by 7:00 p.m. on May 6. The train came in an hour ahead of time.

28th INTERNATIONAL EUCCHARISTIC CONGRESS CHICAGO - JUNE, 1926

Canadian Pacific to Operate Special Congress Trains

The 28th International Eucharistic Congress, to be held in Chicago, June 20 to 24, 1926, will be one of the greatest religious demonstrations that the world has ever seen.

With the sanction of the Ecclesiastical Authorities and, for the convenience of people of Western Canada, who will attend the Congress, the Canadian Pacific will operate special "Congress Trains," starting from Moose Jaw and Winnipeg. The Moose Jaw Special will leave 5:30 p. m., June 18th; the Winnipeg Special 8:15 a. m., June 19th. These specials will carry equipment of the latest type, and provide a fine, fast through service to Chicago.

Special sleeping cars will start from various points in the west and attached to the "Congress Specials" at Moose Jaw and Winnipeg.

Reduced Railway Fares

Reduced railway fare tickets from stations in Western Canada will be placed on sale June 18th to 22nd, bearing a final return limit to July 2nd, 1926. These tickets will be honored on regular or Special trains.

The Canadian Pacific are in a position to make hotel reservations in Chicago, whereby passengers may complete every detail of their arrangements prior to departure. As thousands will attend this event, those who intend making the trip should communicate as early as possible with the Ticket Agent in order that desired accommodation may be secured.

Here and There

Total trade of Canada during April, 1926, amounted to \$127,968,121, as against \$119,014,028 in the same month last year and \$109,054,085 in April, 1924. Of the total \$7,801,253 was for imports and \$60,166,868 for exports.

Immigration figures for the first three months of the current year show an increase of 103 per cent. over similar period for last year. Total number of immigrants entering country was 21,305 for 1926, as against 10,792 for 1925.

Production of manufactured non-metallic mineral products in Canada in 1925 reached a value of \$115,587,216, an increase of almost 45 million dollars over 1924 and the highest since 1920 for this group of industries. The operating plants in these industries in 1925 represented an invested capital of 159 million dollars.

Remarkable expansion of the cream export industry of the province of Quebec is disclosed by figures of the Dominion Express Company furnished recently. In May three to four carloads, or about 614,400 pounds of cream were going every week, while in June an average of a carload a day, 153,600 pounds, was predicted.

Tomatoes weighing over 22,600 pounds travelled across Canada by Dominion Express recently, constituting the largest load of hot-house tomatoes ever shipped out of British Columbia. Handled in a single express car, the shipment was the product of the Victoria Hot-House Association, which represents the majority of the tomato growers on Vancouver Island.

CAPT. J. T. SHAW'S MANIFESTO

1. Immediate examination of our provincial taxation system and adjustment on sound principles of taxing powers between the province and the municipalities.

2. Decentralization as far as practicable in the services of government, so as to secure more efficient service at less cost.

3. An immediate and long overdue reduction in taxation with special tax adjustments for sub-urban areas not suitable to intensive production.

4. A serious and determined effort to make expenditure balance income every year, not every pre-election year only, as at present.

5. The budgeting of an adequate sum every year, on the sinking fund principle to effect the retirement of our public debt within a reasonable time.

6. Realizing the primary importance of the agricultural industry, the Liberal party pledges itself to assist that industry in every reasonable way, by ensuring that co-operative marketing enterprises get a square deal, secure from unfair competition and from all partisan influence and all discrimination; by the provision of adequate facilities for marketing the farmers' produce by establishing in close co-operation with the Dominion government, a system of rural credits based on some sound principles, by vigorous demand before the Railway Commission for needed reductions in railway and express rates and for the elimination of discriminatory freight rates, and by jealously guarding the farmers' interests in the western route, not only by zealous watching but also by proper representation.

7. The Liberal party undertakes to inspire a real leadership in educational affairs and will be prepared to make more liberal financial provision for that essential service. Also will use every endeavor to have the federal government not only continue but increase its grants for technical education. In addition there must be a closer co-ordination of the agricultural work undertaken by the university and agricultural and other schools in the province.

VOTE FOR ARTHUR M. DENSMORE

University Of Saskatchewan Is Carrying On Valuable Work In Extending Scientific Knowledge

President Walter Murray, at the recent convocation of the University of Saskatchewan announced that the province had decided to use its share of the surplus of wheat pool operated by the Federal Government during the war, to establish an agricultural research foundation. The income from the fund will be some \$120,000 a year, which will be administered by a board of trustees for special researches in plant and animal diseases, in marketing, and also for scholarships, says the Manitoba Free Press.

This scheme of the Saskatchewan Legislature is in line with its record as regards research at the University. For several years now an annual grant of \$150,000 has been voted to this end. Working under this grant, investigations have been carried on in animal diseases and in plant breeding. In house construction, in seeking out types of corn suitable for Southwest Saskatchewan and in chemical and physical researches. Among these last, an inquiry into the cause of decay in concrete. The work along this line is commencing this year. The Canada Cement Company and the Dominion Engineers Council have each repeated its grant.

So well has the ceramics department developed that it was announced that a department of geology would be established. Professor Delury, of the University of Manitoba, has accepted the appointment to this department.

Four reports on soil surveys have been issued and two more are in preparation. Evidently these reports have not been allowed to waste their information on the part of the university. For, for the farming interests and the loan companies have petitioned the university authorities that these surveys be accelerated. Perhaps this is as it should be. The interest of the Provincial Government in university research, in showing the close association between the province and the university.

The university side it will be noted that each of these efforts chronicled has been in direct relationship to Saskatchewan and not concerned with the ravages of the tsetse fly in Africa. These schemes should not and cannot be "communitarian" boundaries, but it should be as true science and yet begin at home.

The criticism might be levelled that all of this is applied science and that if it is playing the game, the university should also devote a portion of its time, talent and income to increase the world stock of knowledge of pure science. Dr. Murray states that this plan is not neglected and that more over the feeling for research has quickened the intellectual life of every department of the university, students and faculty alike. "From this quickening can come the ultimate flower of human achievement," writes Dr. Murray.

Trees On The Prairies

Heavy Three and a Half Million Young Trees Shipped This Year From Sutherland

The staff of the Dominion forestry farm at Sutherland, Sask. have been busy shipping back trees destined to become pleasant groves of shelter in nearly 2,000 places in the Canadian prairie provinces—Manitoba, Saskatchewan and Alberta.

The demand for this free service afforded by the Canadian Government department of agriculture fluctuates with the years, according to farming conditions and settlers' movements. Up to the fall of 1923 the Sutherland farm had shipped since its inception, over 17,000,000 trees. For 1924 the total was over 2,000,000, while in 1925 it was about the same number. This year 2,355,000 were shipped.

It Was A Pretty Strike

It was such a pretty strike—everybody happy and titled ladies' cooking sausages for the volunteers; and ducks and marquis running locomotives, and strikers cheering the soldiers and playing football with the bobbies. It does really look as though the English had a sense of humor that we in these United States sometimes lack.—Chicago Tribune.

May Enlarge B.C. Plant

"If the chemical research work of our laboratories regarding utilization of a new oil is successful, we will be able to make the plant," said Mr. Lawrence Kilham, president of the British Columbia Plant and Paper Company, in an address before the foreign trade bureau of the Board of Trade of Vancouver.

Toads, bats and snakes can live longer without food than any other creatures.

W. N. U. 1243

Canada's Wheat Surplus

Dominion Has Supplanted U. S. As Granary of World

Figures supplied by the latest bulletin of the International Institute of Agriculture at Rome gives the world total of exportable wheat between last August 1 and next July 31 as 725,000,000 bushels. The needs of the importing countries will be satisfied with 615,000,000 bushels. The carry-over, therefore, will be the satisfactory total of 110,000,000 bushels. So far as can be judged in advance of knowledge of what the next yield will be, it is apparent that the price levels are at their maximum for some time.

No longer is the United States the granary of the world. Its wheat crops in the last several years have not been as large and the domestic demand annually has subtracted from the exportable surplus. The Institute of Agriculture estimates the exports of American wheat at 41,500,000 bushels for the crop year ending next July 31.

That figure leaves the Republic a poor fourth in the list of five leading wheat-exporting countries. Canada leads with the enormous exportable surplus of 211,500,000 bushels. Argentina is next with 154,500,000 bushels, Australia is third with 77,500,000 bushels, and India is fifth with 6,100,000. A total of 1,250,000 bushels is expected to come from all other wheat-growing countries.

Minerals Are Essential

Milk Cows Often Need Building Up After Winter

For the heavy producing cows that have come through the winter in a more or less depleted condition with respect to calcium and phosphorus and where these cows are now going to pasture, it would seem a minor practice to provide them a mineral supplement, says the Breeder's Gazette. They will need salt anyway. They will not eat steamed bone meal and they need ground limestone unless these are mixed with something of a palatable feed nature or with salt. On pasture a mixture of equal parts steamed bone meal, finely ground limestone, and salt self-feed, should supply everything the cows need, except in those sections where there are losses due to krait. In these sections some potassium iodide should be given. Two grains of potassium iodide per head daily may be mixed with the feed. This is best done by sprinkling on the feed one tablespoonful of a solution of one ounce of potassium iodide to one gallon of water. This is true at least until further knowledge is discovered on the mineral nutrition of cows.

Is Almost Too Perfect

Vermont Boy Does Housework As Well As Chores

Donald Brown, 10-year-old son of Mr. and Mrs. Clifford Brown, is an expert in cake and cookie making. He makes all the cakes and cookies for his mother, attends to the baking and does the frosting. He also takes care of his room and does other work about the house, besides doing outdoor chores.

New exhibition buildings are being erected at Ottawa. These will be ready for the World's Poultry Congress in 1927. Floor plans of the buildings are being prepared for distribution to intending exhibitors. Application for these should be made to Ernest Rhodes, Congress Secretary, Experimental Farms, Ottawa.

C.P.R. President Leaves for England and Continent

A large number of Canadian Pacific directors and officers were on the Windsor Station platform to say good-bye to Mr. Beatty and W. R. McNeil, vice-president of traffic, who accompanied him on his trip. Those included in the group were Sir Herbert Holt, F. W. Molson; Ross McMaster; F. E. Meredith, K.C.; A. D. McTier, vice-president; J. J. Reilly, general manager; W. A. Walworth, assistant to the chairman Canadian Pacific Steamships; Ernest Alexander, secretary; W. M. Noh, assistant to the vice-president; J. K. Savage, general superintendent; C. E. E. Fisher, general passenger traffic manager; E. de B. Panet; W. Maughan; W. G. Annable; W. Ballantyne and Capt. J. T. Walsh.

Report Unique Discovery

English Workmen Find Complete Sickle in Heart Of Tree

Many curious objects have been found embedded in trees, but the recent discovery of a sickle is probably unique. This object was found by working men employed in sawmills at Wolveston, England. While engaged in sawing an elm into planks, a complete sickle was found in the heart of the tree. The elm was grown in Bedfordshire and is estimated to be about 90 years old. It is supposed that a woodman left the sickle in the tree some 70 years ago, as that number of annual rings were found outside the sickle.

Had Some Job

Old Timer—Understand Bill took mechanical engineering. What is he doing now?

Second Old Timer—He is working for the railroad.

"What? What doing?"

"Well, you know the man who goes around the cars and taps all the wheels to make sure everything is all right?"

"Yes."

"Well, Bill helps that man listen."

Iowa News Gander.

A man seldom likes to meet another man who has a bad for collecting bills.

Some Interesting Facts

Remarkable Progress Made By Canada In Recent Years

In a recent compilation made by R. H. Coats, Canadian Government statistician, the population of Canada is estimated at 9,354,200. In 1901 was but 6,871,000. Thus, the gains in 25 years have been 75 per cent.

Other interesting facts given in the compilation are: "The number of Canadian homes is 2,081,212, of which 42 per cent are owned and 58 per cent rented; the average Canadian family is 4.62; the proportion of men to women is exceedingly high—105 to 100. One out of every 100 is a victim of crime (277 indictable offences per 1,000 population in 1924). On education Canada spends more than \$120,000,000 yearly.

Next to population among national assets stands natural resources. The basic fact about Canada is that she is a half a continent and still a "new" country. In agriculture, the total arable area is at least 200,000,000 acres, of which less than one-half is improved and less than one quarter "occupied."

"Though in population Canada ranks twenty-fifth among the countries of the world, in import and export trade she ranks sixth. In exports, on a per capita basis, she stands second. Nearly half of the trade of Canada is with the United States."

Arranging Culling Service

Members of Saskatchewan Poultry Pool Can Work Out Flocks

The Saskatchewan Egg and Poultry Pool is arranging a culling service which will enable its membership to have their flocks worked out. The pool is also arranging to market the non-profit hens, culled from the flocks, by making live car shipments from the pool. It requires some 2,000 hens to make up a carload. It is intended to make a substantial initial cash payment at the car door, when these culled are delivered for shipping. A sufficient number of the culled experts will be available this summer. The cost per flock will be nominal.

Young Leghorn Won Egg-Laying Contest

Pullet Outdistanced All Older Contestants In Production

The younger of the hen species is more prolific than her older sister, according to records of an egg-laying contest just received by the department of commerce from Buenos Aires. A young White Leghorn pullet won the Argentine contest. During eight months she laid 162 eggs. The best record achieved by hens was by a White Wyandotte, which laid 131 eggs during the eight months. A pair of White Leghorn pullets also laid a total of 162 eggs.

Forest Planted By Scouts

No less than 85,000 young trees were planted by the Boy Scout troops of New York state last year. About that number were planted by the Scouts in Pennsylvania. Where the minimum age limit of sixteen years did not interfere, the boys also parolled the forest and helped fight fires.

Because of the ban on hunting swans in the past ten years, there are more than 15,000 swans in waters along the coast of Maryland, Virginia and North Carolina.

Some Interesting Information Relating To Early Exploration Of The Hudson Bay Area

All Farm Animals Need Salt Supply

Plays Important Part As Appetizer and Stimulus to Digestion

Experience and science alike have shown that salt is essential to the good health and thrift of farm livestock. It is not a food nor does it directly increase the digestibility of food, but it nevertheless plays an important part in the work of nutrition, writes F. T. Shutt, Dominion chemist. It is chiefly valuable as an appetizer and a substance which makes the feed more palatable; as a stimulant and tonic, when taken in small amounts, and as a source of hydrochloric acid, a normal constituent of the gastric juice. Its use, therefore, leads to larger consumption of food, and by stimulating digestion, permits the animals to make a larger and more profitable return in flesh or milk production.

Of all farm animals, cows in milk require the largest amount of salt. Sheep require salt and there should be no neglect in supplying it, either by trough, barrel salt, or rock salt. It should be available to them at all times.

Horses thrive best when regularly supplied with salt, say about one ounce daily. When hard at work they require more than at rest, for the reason that salt is excreted in the perspiration.

Pigs and poultry require less salt than other farm animals, but it should be supplied regularly. Brood sows should not be without salt, which may be given in box, trough or self-feeder. All stock fed liberally with salt, either nutritious feed, exhibit a craving for food, and this should be met if good health and thrift are to be maintained.

The Weed Menace

Vigorous Prosecution of the Fight Against Weeds in Alberta

More than eighty municipalities were represented at the convention of weed inspectors and inspectors, held at Olds, Alberta, recently. Thorough discussion of the weed campaign for the summer took place, and indications are for a vigorous prosecution of the fight against the weeds. Excellent co-operation between the various municipalities and the provincial department of agriculture in the campaign was manifest at the convention and considerable further progress is anticipated this year in clearing the province of the weed menace.

Needed As Much As Cash

The Brantford Expositor notes that young Cornelius Vanderbilt has lost a million and a half dollars trying to establish three newspapers. He is now in a hole, and is required—brains, for example.—Kingston Standard.

Fruit trees should not be sprayed when they are in full bloom, because the poison may kill the honeybees, which play so big a part in pollinating the flowers.

The Victoria Tower, Westminster, London, is the biggest and highest square tower in the world, being 75 feet square and 336 feet high.

The Bellair Telegraph Contains Some Interesting Information Relating To Early Explorers In The Hudson Bay Area

According to this paper, the best known of whom was Arthur Dobbs, a sixteenth century author and statesman, who towards the close of his life became Governor of North Carolina. He was dissatisfied with the Hudson Bay Company, which had confined its explorations to the coast, and had not complied with its charter by seeking a northwest passage to the Pacific Ocean. Apparently he obtained copies of the Nelson's Bay explorations up to that time and these have been preserved for 170 years on the shores of Bellair Loch.

The Journal of Henry Kelsey, covering the experiences of an officer of the Hudson Bay Company from 1682 to 1722, is the earliest volume among these documents. The greater part of his life seems to have been spent in the service of the Hudson Bay Company, a tributary of the Nelson's Bay explorations. His reports that he must have reached the prairie country of Northern Manitoba, and was probably the first white man, certainly the first Frenchman, to penetrate to the coast. In 1681 and again in 1697, this fact which he was stationed was obliged to surrender to French vessels of war. Kelsey continued on the coast until 1722, and eventually rose to the position of chief trader at a station. Only scant details are given of his later experiences, but it is clear that he was engaged to the Eskimo country, although he was unable to develop trade with the inhabitants.

It is recorded that Dobbs kept up his campaign against the Hudson Bay Company and induced the British admiral in 1741 to send the King's Purse to Churchill River. The master's journal of this voyage is also among the papers recently found in 1746 two other ships were sent on exploration work, and the journal or one of the ships is included in these papers.—Reginald Leader.

Preservation Of Eggs

The "Guarantee" Process For Eggs Stored in a Cellar

The value of the "Guarantee" process for storing eggs, which consists of dipping the eggs in a boiling solution of salt and oil, as demonstrated in an experiment where the eggs were kept in a cellar. Describing the experiment in his latest report the Dominion poultry husbandman states that the "Guaranteed" eggs were in a considerably better condition at the end of fifteen weeks than the non-processed ones. When opened for flavor there was a marked difference in flavor of the "Guaranteed" eggs. The non-processed eggs began to have a musty flavor after the tenth week, while the "Guaranteed" ones had only a very palatable, boiled or poached, when taken out at the fifteenth week. It seems, therefore, certain that the process has a decidedly favorable effect on the keeping quality of eggs stored in an ordinary cellar.

Enormous Flower Grows In Sumatra

Measures One Yard Across and Weighs Fifteen Pounds

What is the largest flower you have ever seen? Probably the big yellow sunflower, or maybe the peony. But in tropical countries flowers grow to an enormous size. The children of Sumatra could bring you a flower that measures one yard across, having large cream-colored petals as large as dinner plates, and a beautiful centre of purple stamens. You would not want to carry a bunch of them home, for you would find them heavy enough to carry, a fully developed flower weighing fifteen pounds. Just fancy, a bud of this remarkable flower looks like a brown cabbage.

Was Not Interested

The waiter was taking the order of a pretty girl who was accompanied by a third party, middle-aged man. "And how about the lobster," the waiter inquired. "Oh, he can order whatever he likes," came the startling reply.

Marquis weath, now grown on 20,000,000 acres of land, all comes from a single head produced in 1903 by hybridization.

It is probable, also, that one of the least vastly more important in the scheme of things than another.

TWELVE REASONS FOR ELECTING LIBERALS

1. The Liberal Party stands for a more business like administration of Alberta affairs....The present government is without business ministers, without business experience and has been without business success. It is a Class Government which is divorced from business entirely.

2. It stands for greater economy in administration. The present government has increased the debt of the province in five years by \$22,000,000, with nothing permanent to show for it. It has been more extravagant than any previous administration, or any other in Canada.

3. It stands for more progressive administration. The present government has nothing to show for its five years of office. It has passed no constructive legislation. It has delayed all the serious problems.

4. It stands for more active development of the unsettled areas. The present government has made no advance since it took office.

5. It stands for better development of agriculture. Capt. Shaw objects to bringing the pools into politics, but his record as a member at Ottawa shows his enthusiasm for co-operative marketing, his vigor for cheaper transportation rates, his insistence on the removal of all the burdens which have been preventing development.

6. It stands for better educational facilities. The present government has been sacrificing education and burdening the department with useless educational fads.

7. It stands for better health organization and encouragement for hospitals. There has been no development in the health department since 1921.

8. It stands for honest and efficient administration. A fair distribution of the expenditure on public works.

9. It stands for honest distribution of the province into ridings.

10. It stands for justice to the returned man in the province.

11. The record of the Liberal party has been one of development and progress. It has to its credit:

1. The settlement of the province.
2. The organization into municipalities.
3. The destruction of railway, lumber and telephone monopolies which threatened its destruction in the early days.
4. Farmer legislation such as co-operative elevator act, the farm machinery act, direct legislation.
5. The beginning of Labor legislation, which has remained unimproved. This includes the Factory Act, the Workmen's Compensation Act, and other similar legislation.
6. The development of the vast Peace River area.

7. The organization of schools, the creation of the Provincial University, the Institute of Technology and Art and the Farm Schools.

8. Franchise for women and all legislation safeguarding the rights of women.

9. Hospital legislation and all progressive health legislation.

12. It has at its head a man who has wide experience in legislation, who has at his back outstanding representatives, not of one class alone, but of all classes in the province—farmers, labor men, business men and professional men.

Inserted by the Liberal Association of Alberta.

Here and There

On May 16 two hundred new Scottish settlers arrived on the Canadian Pacific liner "Metagama" in charge of Father R. A. MacDonnell, managing director of the Scottish Immigration Aid Society. This is the second consignment of settlers brought out this year under the Clan Donald plan.

The well-known comic strip artist, Clare Briggs, of "Mr. and Mrs." fame, arrived in Montreal recently with six New York newspaper men. They then went up to the Laurentian mountains for some trout fishing on Lake Archambault and streams in the immediate vicinity of St. Donat Chalet.

A. L. Rawlinson, passenger agent, and Victor Collignon, chief clerk of the Canadian Pacific Railway at Antwerp, have been appointed as Officers of the Order of the Roumanian Crown by His Majesty, King of Roumania, for services rendered in connection with the general handling of Roumanian passengers at the port of Antwerp.

An innovation is now in use along the Laurentian run of the Canadian Pacific Railway in the form of two hospital cars which will meet any demand which arises or urgent calls that may occur in cases of illness. First-class cars have been converted into hospital rooms in such a way as to easily take care of four or five sick persons.

A record single shipment of Indian motorcycles, consisting of 85 cases from Amory, Mass., recently arrived in Tokyo, having come forward by Canadian Pacific rail and steamer lines. The demand for motorcycles in Japan is steadily increasing as this is considered a cheap and convenient method of locomotion and well suited to the somewhat narrow roads of the country.

Personal and Local

Mr. and Mrs. A. E. MacLean, 6th street, left last Friday with friends on a motor trip by way of Banff - Windermere for Amisk, Provost, and other points in north-western Alberta, where they will spend a couple of weeks.

Mr. Harold Pinkney, of Blairmore, purchased the Unsworth grocery stock and has been busy the past week removing same to his Blairmore store.

Plan Gasoline Extraction Plant

Plans for the establishment of a large gasoline extraction plant at Wainwright oil fields are being made by a Los Angeles firm, who may eventually spend \$100,000 in the plant. Thorough tests of the Wainwright gas for extraction purposes are being made.

Mrs. W. N. Donaldson and daughter Margaret, returned Thursday last from a two week's visit to Kimberley.

Mr. E. Marsden, who moved to Calgary a little over a year ago, is back in Coleman again and has taken a position with the Coleman Bakery.

Mr. F. J. Lote secured a nice catch of speckled trout (10 beauties) at the South Fork Wednesday.

Coleman Sports Day, July 1st—The biggest day ever held in the Past!

Say It With Flowers

When you require flowers artistically arranged for any occasion, at moderate prices, and of unexcelled quality, phone No. 13, THE COLEMAN TRADING CO., LTD., agents for Frache Bros., Lethbridge, advt.

Big Area Filed On

A total of 80,000 acres in oil leases have been filed on during the last week in the vicinity of Foremost, south east of Lethbridge, where large gas deposits have been located. Drilling for oil will be undertaken by the syndicate filing on the leases.

U.S. Editors Visit Province

A party of editors of daily and weekly newspapers from Michigan and Minnesota, were visitors to the province during the past week. They were members of the Inland Press Association and Graphic Arts Guild, and spent a day in Edmonton and Jasper Park.

PLEASED CUSTOMERS

are our best advertisement. We make it a point to satisfy. If we have not just what you want, we'll get it for you. Our stock of--

HARDWARE AND SUPPLIES

is extensive, large enough for almost every one; but you may want something special. You are, then, the one we want to satisfy particularly. We know we can do it.

Druggist and Stationer Coleman, Alberta

Always

Better

REGARDLESS of the model or the price, McLaughlin-Buick has always been a good car and an outstanding value.

The underlying principles which make McLaughlin-Buick in every way BETTER are the result of years of experience and research developed by the vast Research Departments of General Motors—proved by the most exhaustive tests at the General Motors' Proving Grounds—and finally incorporated as standard features essential to McLaughlin-Buick performance.

Today—as in the past and as, we confidently believe, in the future—McLaughlin-Buick is the basis of all automobile values—the standard, for the entire continent, to which motor cars of every make seek to measure up.

There is a McLaughlin-Buick model to meet your needs and at a price to suit your purse.

The new low GMAC financing rates are available to purchasers of McLaughlin-Buick on time.
